In response to the Final Office Action mailed November 5, 2002, please consider the following:

IN THE CLAIMS

Please amend the claims as follows:

29. (Twice Amended) A method for forming a container capacitor, comprising the steps of:
- providing a cup-shaped bottom electrode;
 - providing an insulating layer around and in contact with an exterior surface of said cup-shaped bottom electrode;
 - masking a first partial circumferential portion of said insulating layer;
 - etching a second partial circumferential portion of said insulating layer from a partial circumferential part of said exterior surface to expose the part of said exterior surface;
 - depositing a dielectric layer on said part of said exterior surface; and
 - depositing a conductive layer on said dielectric layer.
